

MEDI-CAPS UNIVERSITY

MINI PROJECT WORK

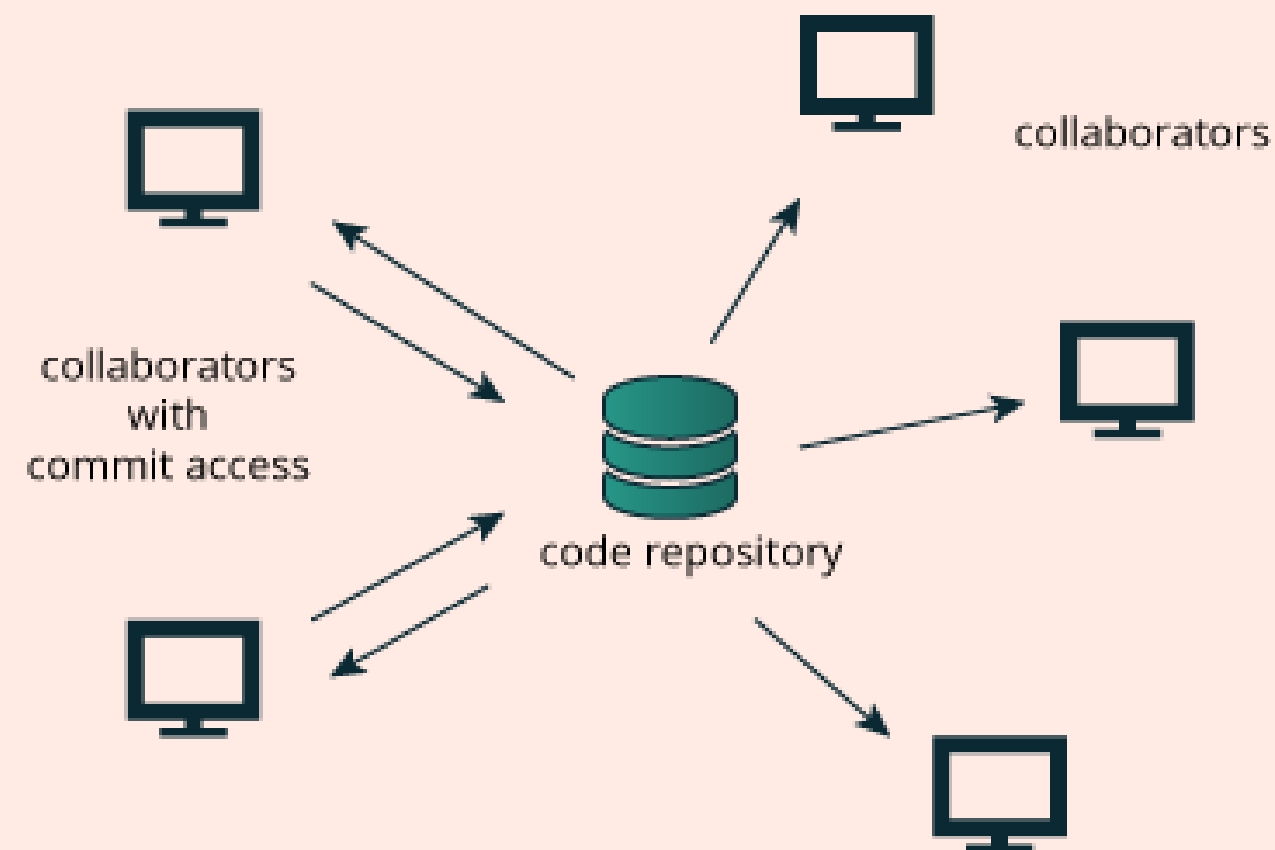

GUIDED BY- ARPIT DEO SIR

WHAT IS GITHUB

GitHub is a web-based interface that uses an open source version control software that lets multiple people make separate changes to web files at the same time. It allows for real-time collaboration, hence GitHub encourages teams to work together to build and edit their content.

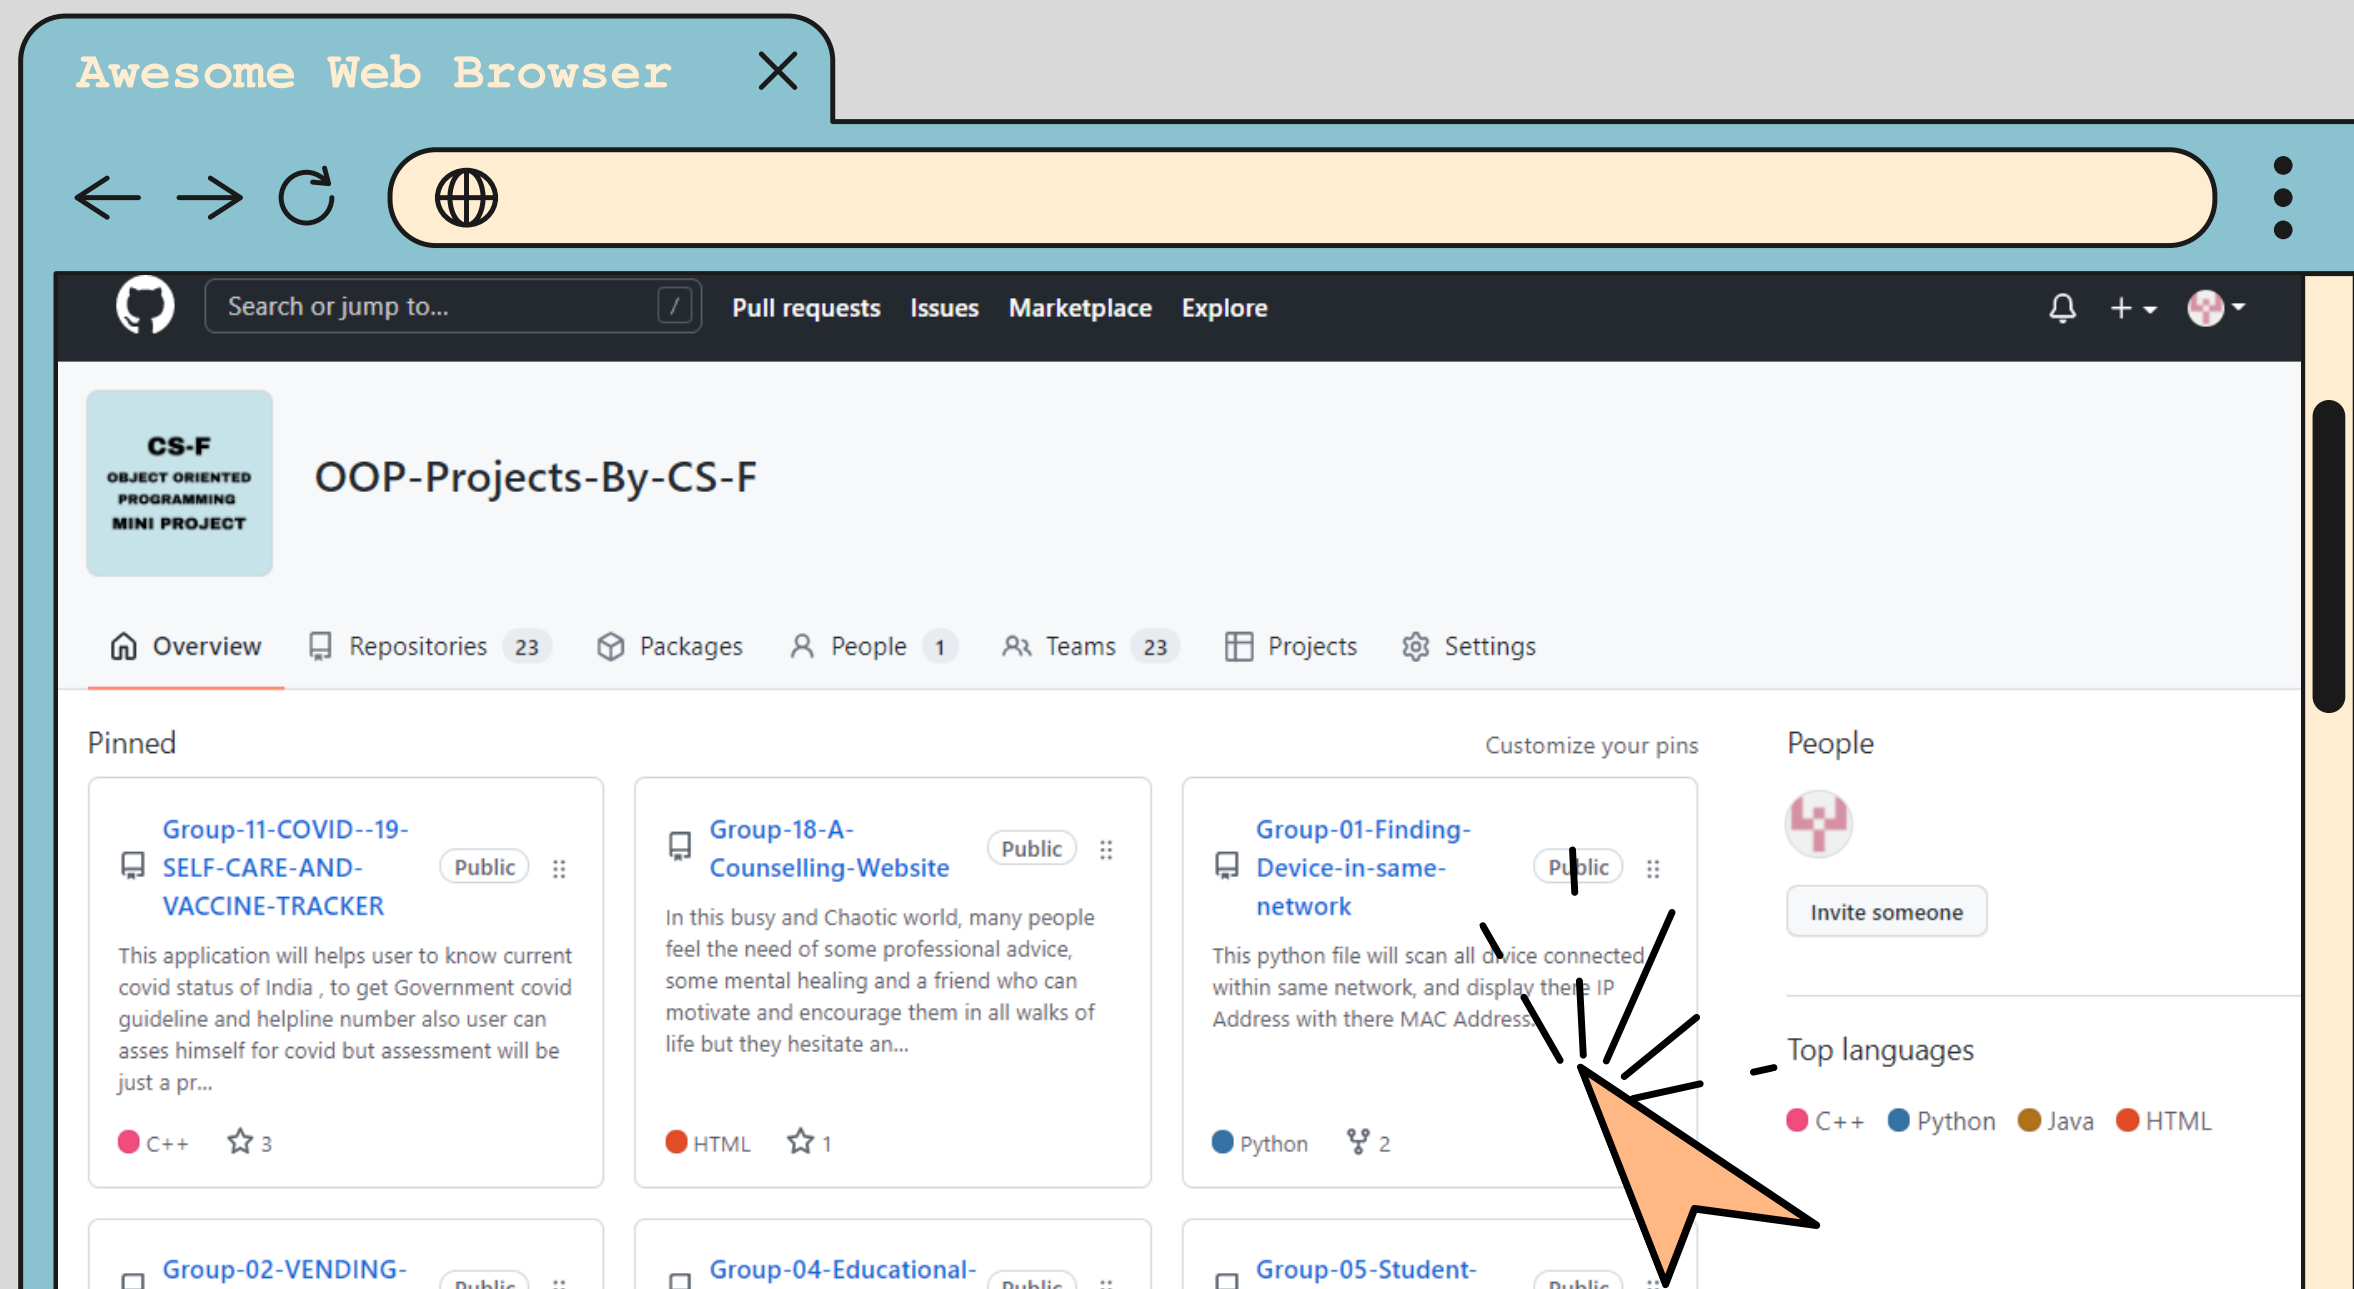

WHY GITHUB

GitHub allows multiple developers to work on a single project at the same time, reduces the risk of duplicative or conflicting work, and can help decrease production time. With GitHub, developers can build code, track changes, and innovate solutions to problems that might arise during the site development process simultaneously.

MINI PROJECT SUBMISSION

The aim of creating the organization was to give students an exposure to working on github and working as a team. the organization was created in such a way that each group had their own team and repository.

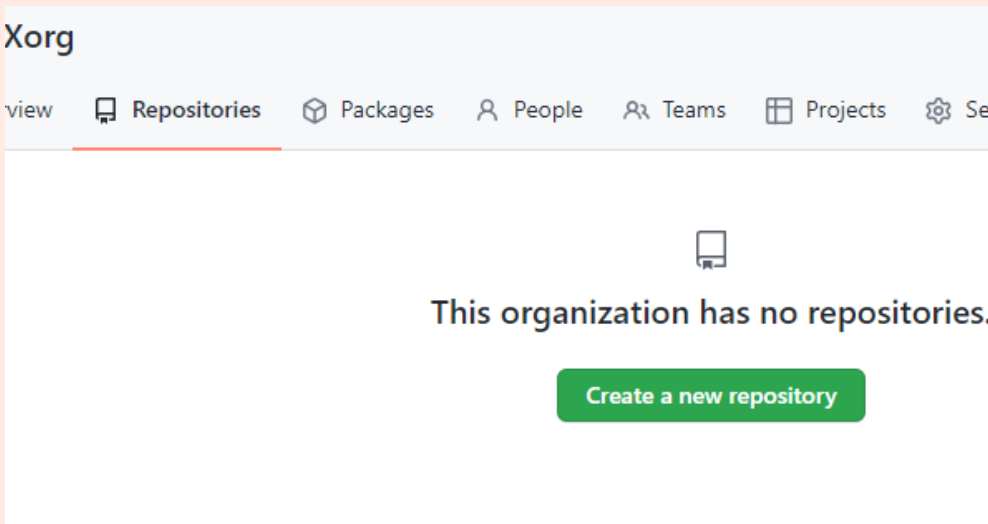

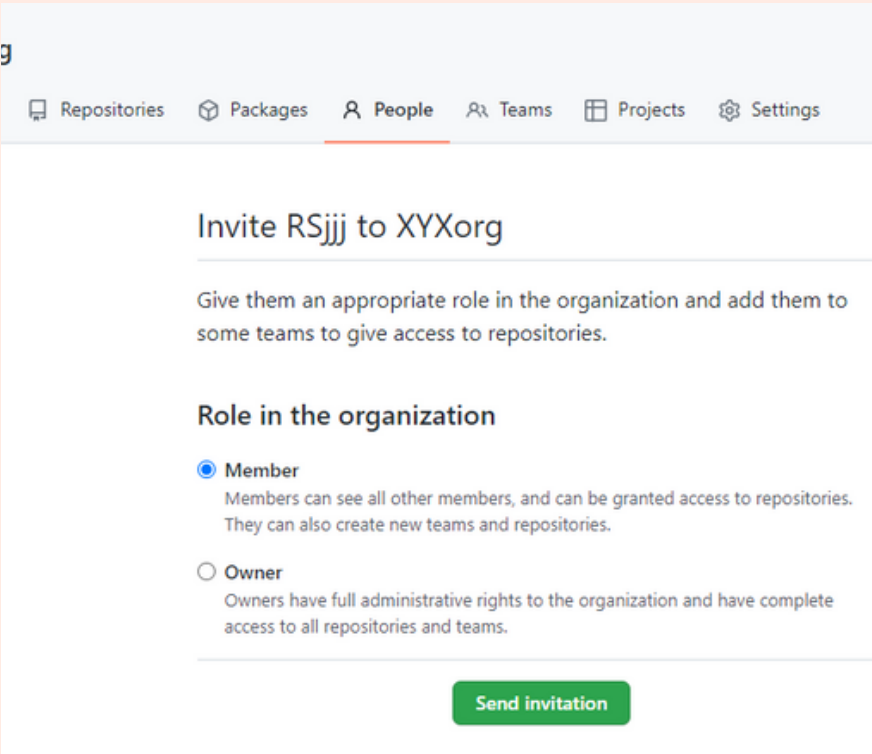

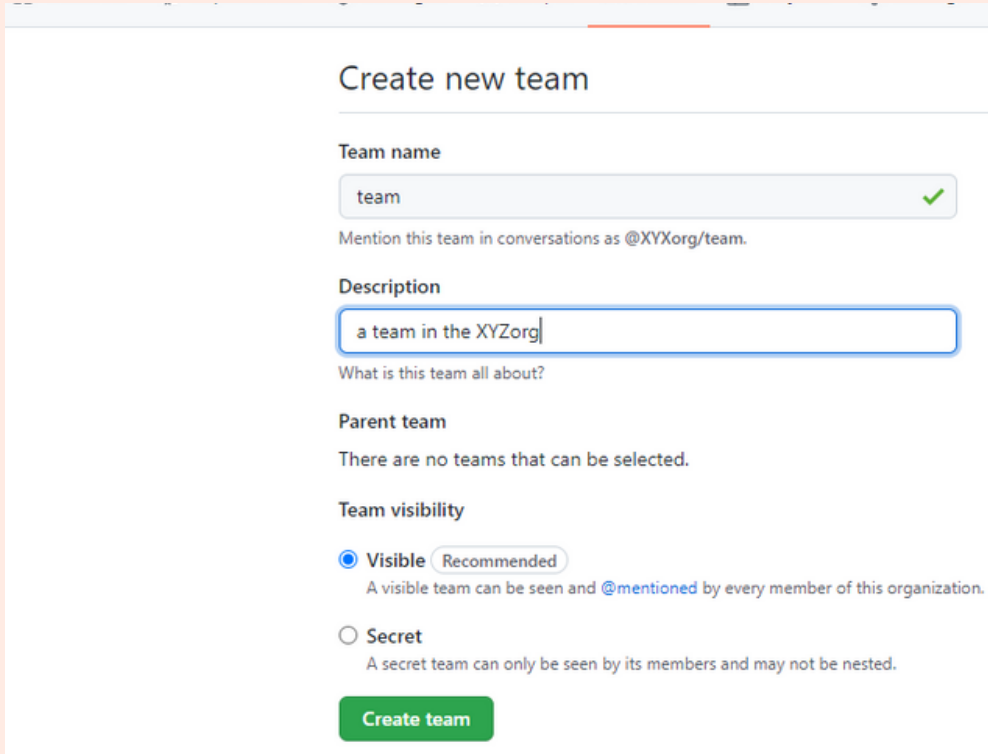

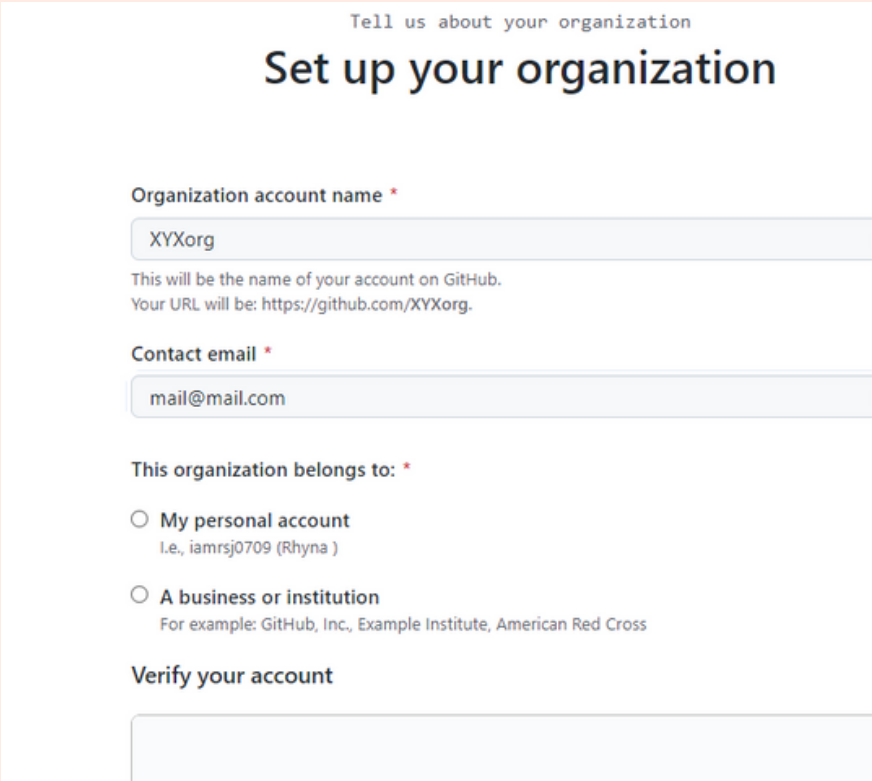

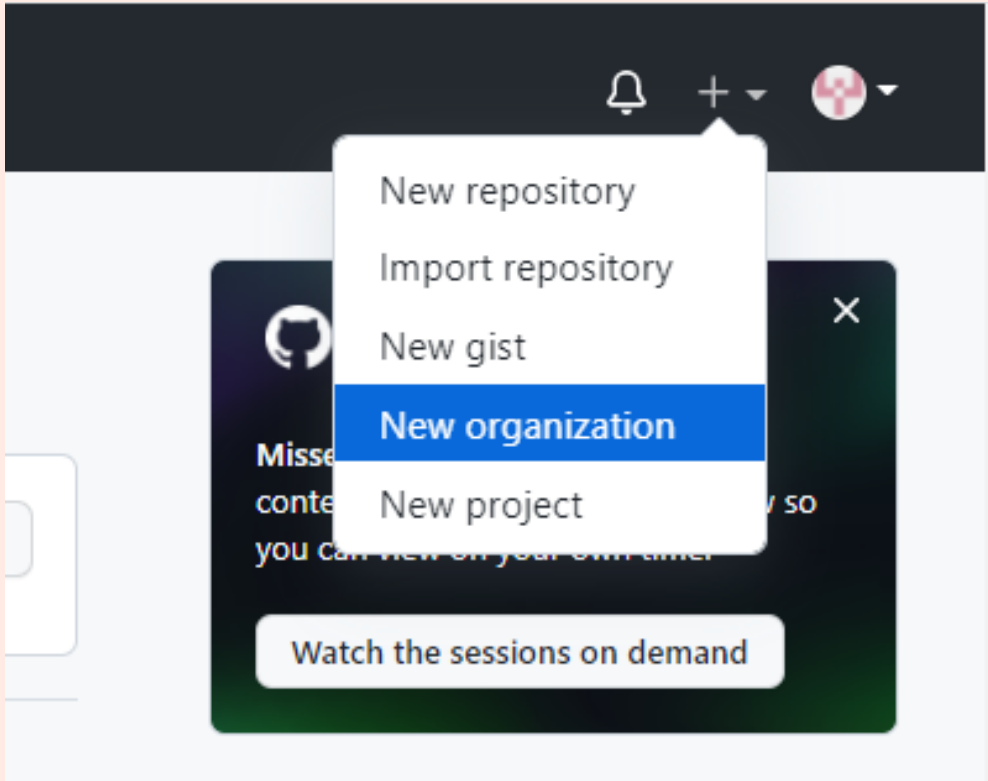

STEPS

in creating the organization

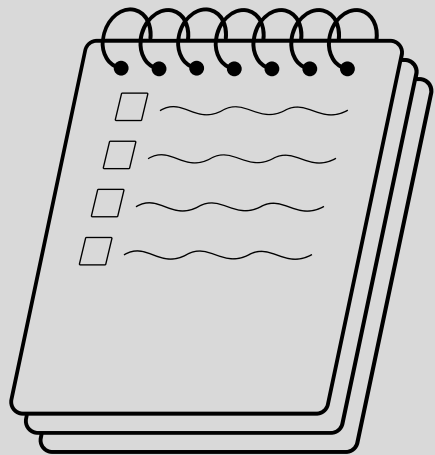

1	From the github account create a new organization and proceed to set-up the organization.
2	Create new teams, invite collaborators and manage collaborator access from the settings option, create new repositories and assign them to the respective teams.
3	Once the set-up is done and the members are added your organization is ready to work together and collaborate.

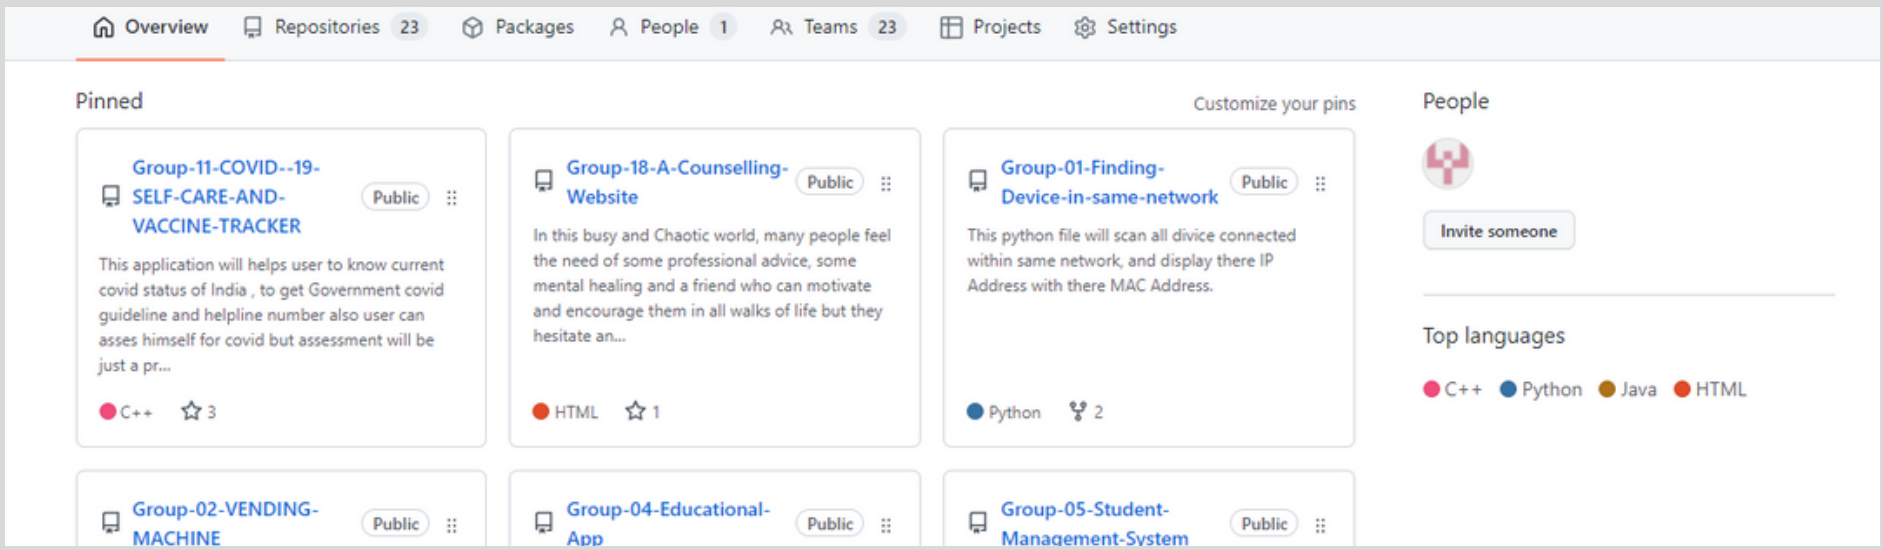

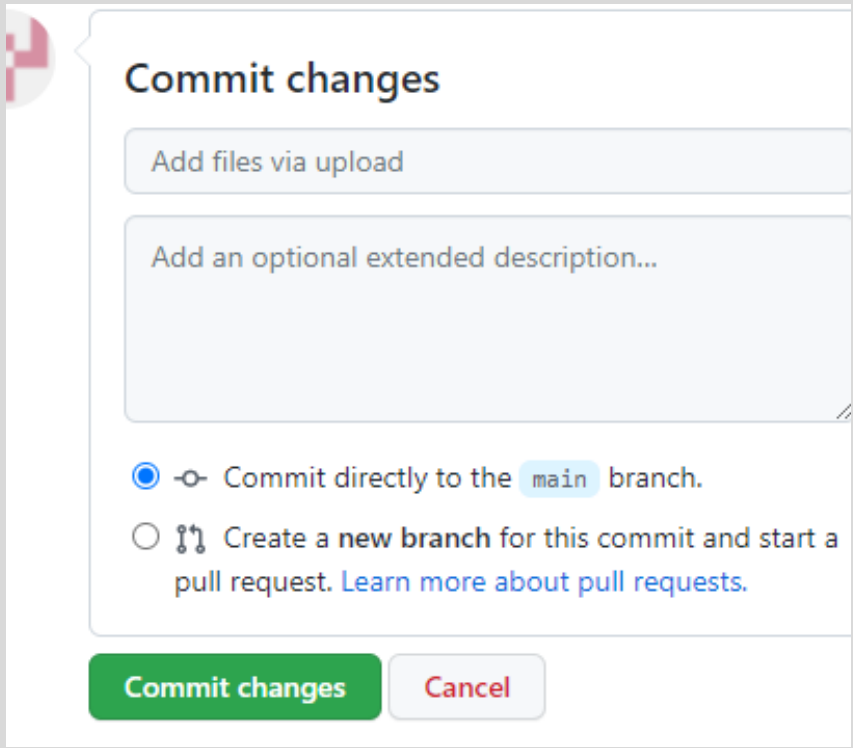

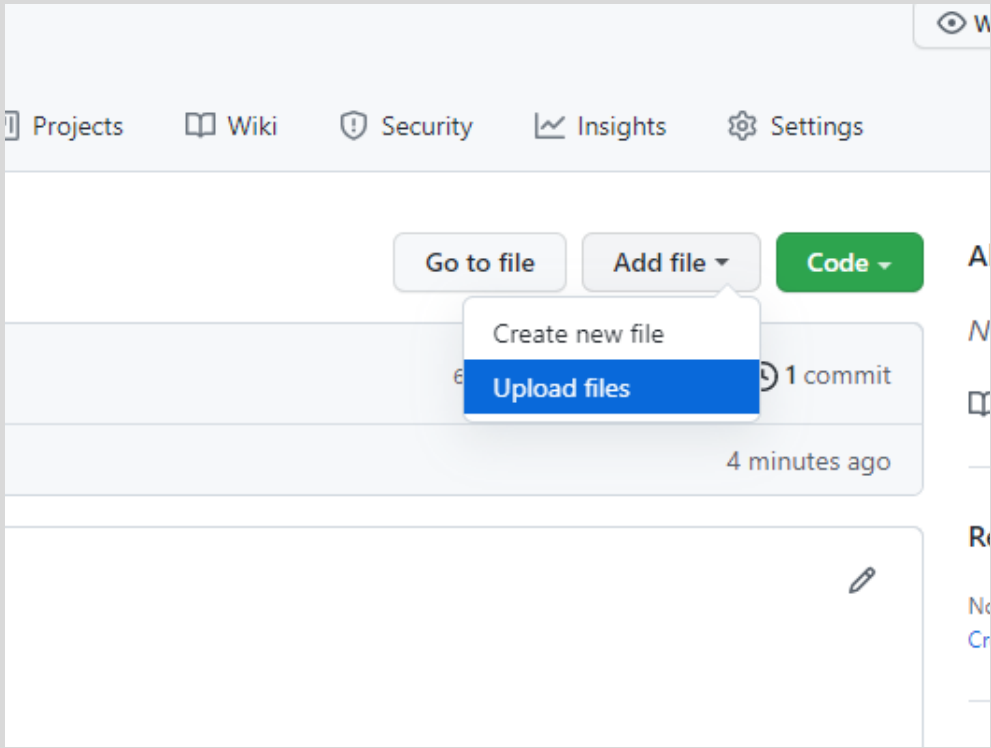

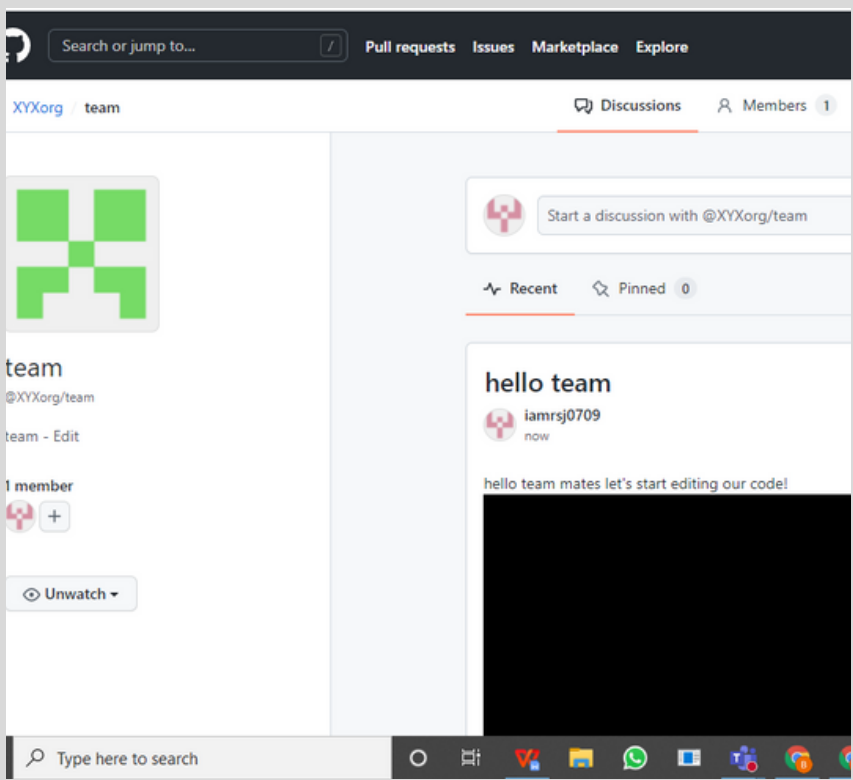

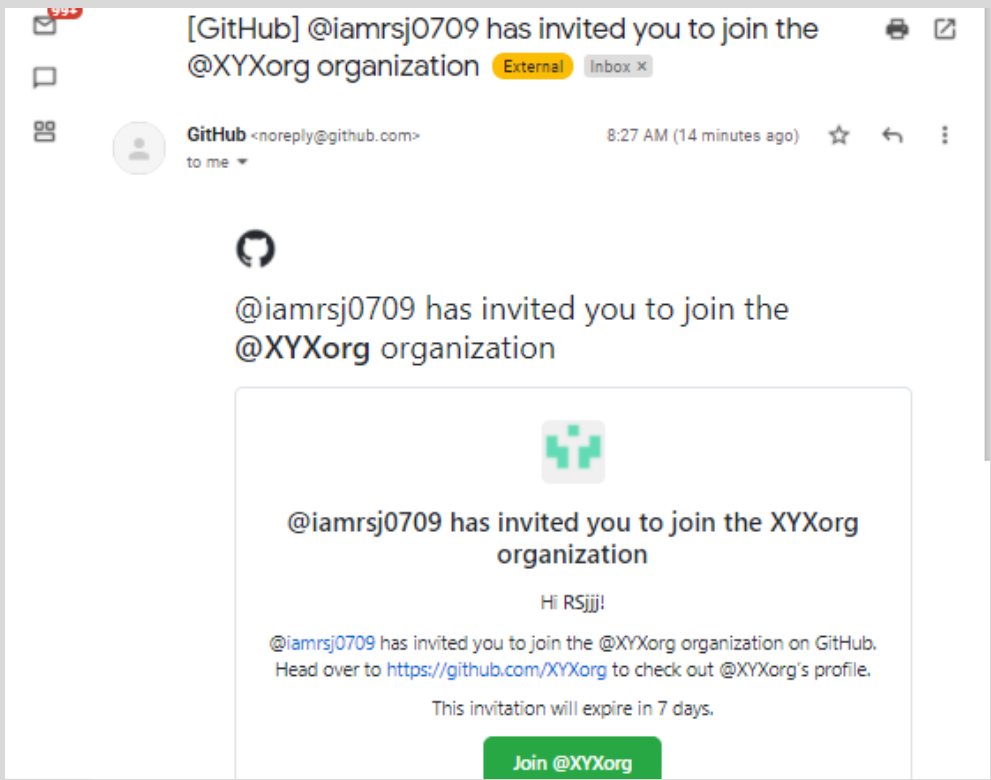

STEPS

as a member of the organization

1	Accept the invite sent by the organizer and enter the team that has been assigned
2	Then go to the repository and click on add files to upload or create files. After uploading files commit the changes made and ensure your changes have been made
3	Once the files are added then They will become visible on the home page of the organization

	A HEARTY THANKS TO	
THE UNIVERSITY AND OUR FACULTY FOR PROVIDING THIS OPPORTUNITY		
ARPIT DEO SIR, FOR BELIEVING IN US AND BEING A CONSTANT SOURCE OF GUIDANCE AND MOTIVATON		
ALL THE CLASSMATES FOR CO-OPERATING WITH GREAT TEAM SPIRIT
